

## SUNDY CIVIL BILL CARRYING MILLIONS

Reported By House Appropriations Committee—Disabled Men To Get Assistance

Washington, Dec. 29.—The sundy civil service bill, carrying \$383,611,000, or nearly 421 million less than asked by the government departments, was reported today by the House Appropriations Committee. This was a total also of \$52,000,000 less than the amount appropriated for similar purposes last year, indicating a desire to put the government expenditures on a pre-war basis.

The committee, first taking care of men disabled by war, set only \$1,611,000 for actual sundy civil expenses of the government which was within \$34,000,000 of the total amount appropriated for 1916, the largest single reduction. \$147,000,000 applies to the Shipping Board.

Washington, Dec. 29.—His request for \$300,000 was not included in the sundy civil service bill, Attorney General Palmer before the House Appropriations Committee today, emphasized the need of additional funds for the enforcement of prohibition and to cope with the wholesale liquor violations reported from many sections of the country.

He recited that 17,000 prosecutions had been made up to September 30, 1900, of which arose during the last three months of that period. It was expected the ratio to increase with a minimum of 40,000 cases to be handled by District Attorneys next year.

The committee was also told of a big stock of liquor in the Bahama Islands, 40 miles from the Florida coast which is being smuggled over.

## SAWYER SMITH MAY GET SLATTERY'S JOB

The Louisville Herald discounts the story from Washington that Congressman King Swope is to succeed T. D. Slattery as U. S. Attorney in the Eastern District when Harding becomes President. The Herald says:

That Sawyer Smith, of Barbourville, will be the next United States District Attorney for the Eastern District of Kentucky was a "tip" being circulated here yesterday. Mr. Smith served as assistant when Edwin P. Morrow, now governor, was district attorney, with headquarters in Covington. While nothing of a definite nature can be found to indicate that the Barbourville man will land the plum, the Eastern Kentucky politicians are giving the report credence.

Joseph Spears, at present United States Commissioner, located at Catlettsburg, is being backed for United States Marshal for the Eastern District under the Harding administration. Spears was formerly deputy United States clerk, with headquarters in Covington, and his friends in that city announced Monday that there was a movement on foot to secure his appointment at the proper time. There are said to be a number of candidates for the place.

## VISITING TOBACCO MEN TEST SLEEP FACILITIES

The visiting tobacco men are occupying all available beds and there was such a dearth of sleeping places Tuesday night that four men from Rockcastle county occupied one bed. They were unable to make the return home and were glad of a place to spend the night out of the cold. There are a number of places where these men have been frequenting for years but all were filled early and some were hunting lodging places late Tuesday night. The rush, it is believed, will be over by the last of the week. Five of the drivers of wagons from Estill county were preparing to solicit a place at the county jail when they were given berths in a private home by a friend.

## R. O. MOBERLY FOR COUNTY CLERK

The Daily Register is authorized to announce the candidacy of Richard O. Moberly for the office of county clerk, subject to the action of the Democratic primary to be held on the first Saturday in August, 1921.

Mr. Moberly is a resident and farmer of McCreary precinct, better known as Old Union, the banner Democratic precinct of the county. He belongs to a Democratic family of long and honorable high standing in the county, none of whom has ever held public remunerative office. He was educated at Central University and is well qualified for the duties of the office both by character and education. He has many friends and perhaps fewer enemies, if any, than any person who has run for public office in Madison county for a long time.

His qualities for honesty, fair dealing and good sense will enable him to meet and serve the public and perform the duties of his office in a most satisfactory manner. He has had business experience both as a farmer and merchant.

Those who know Mr. Moberly well and who are acquainted with his character and habits and eminent fitness for this office are of the opinion that he will not only make a good and efficient clerk if nominated and elected, but that he will make an exceptionally strong candidate in the final election.

Denying her claim, the state is attempting to escheat the estate to the school fund. The state of Indiana contends that she is not a daughter of the late Rosa Lowry Whitte, but is a child of Anna Combs Whitte-Gross, of Jackson, Ky., and that her name is Polly and not Bena; also that the prayer book attesting her birth is not 50 years old, but was manufactured in St. Louis in 1896. ## ST. NICHOLAS AND INFIRMARY FOLKS

Generous Donations Enable Them to Enjoy Holidays—Conditions Are Satisfactory

As a result of the co-operation of many throughout the city and county, together with the untiring efforts of Mrs. Sam A. Deatherage, there were many happy hearts at the Madison county infirmary during Christmas, and the conditions at the institution, under the management of Superintendent Roberts and wife, are reported to have been most favorable generally.

The home was visited by Mr. and Mrs. Edgar Turley and Mrs. Deatherage, who spent some time inspecting the premises, both interior and exterior, and were pleased with the manner in which they were kept; also the condition of those making their home there, they being cheerful and happy, and recipients of fruits and candies, together with more substantial presents, as a result of the work and generosity of many contributors. The soliciting continued for some time prior to the holidays with the result that while there was ample provisions, there was not the generous spirit which has characterized former years. There were two extra donations besides those made just before Christmas.

Some of the residents there are greatly interested in work provided by Miss Mary Catherine Jasper, who furnished quilt pieces, and there's some special work being done by the aged and enthused folks there. It is the intention in the early spring to provide new curtains for the windows and to make other interior additions to the furnishings which will add to the comfort and appearances. Appreciation of what was given was expressed by the recipients liberally and those in charge of the distribution desire through the columns of the Daily Register to thank all donors. It is contemplated to make improvements in the manner of furnishing clothing, if possible, and otherwise to add to the comforts of many who will remain there the rest of their lives.

## HOW CALIFORNIANS WON THEIR FOOTBALL GAMES

San Francisco, Cal., Dec. 29.—Attacks against opposing lines, mainly off tackle, featured the 1920 offensive of the University of California's undefeated football team which is to play Ohio State at Pasadena, Cal., on New Year's Day.

California made little use of the forward pass this year. Only in the game against Stanford University did the Blue and Gold men "open up" and show they were effective in an aerial offensive. In the last period, with the game already won, California tried several forward passes and most of them were successful.

Charges through center have scored nearly as many California yards as have backs off tackle. End runs have also brought in gains. But the main attack has been off tackle, with the two big Blue and Gold tackles clearing the way for the backfield men.

## WHAT IS A MILLIONAIRE?

Many Nevadans Thought They Were Rich Until the Awakening Came.

In the height of the mining boom twelve years ago there were nearly 150 millionaires in Nevada, on paper. Three months later the definition of a Nevada millionaire was "a man with an automobile and an overdraft." Their profits were in paper and they could not get them out.

Their books showed millions made in stocks, but when the panic of 1907 hit the country, when the miners of Goldfield went on strike, those stocks—most of them—were not worth the paper they were written on. Their owners could not sell them.

Now another period of prosperity is swinging around to this country. Through thrift and self-sacrifice during the war, the workers of America have READY MONEY. Fradulent promoters know this and the country is being flooded with wild-cat stocks. They promise enormous profits but they PAY no money.

## MAKE UP YOUR MIND RIGHT NOW

You Can Be Well if You Build up Your Blood

**PEPTO-MANGAN MAKES RED BLOOD**

Start Now to Put Yourself in Good Trim to Fight Disease

The matter of possessing good health depends largely upon yourself. If you think about being healthy and make up your mind to do the things that reason and experience have taught to be best for your health, you can be well unless you have some dangerous disease.

You have a body and it requires care. Nature automatically adjusts things for you up to a certain point. When your blood becomes clogged and full of poison—and that is what happens when you overwork or strain—your vitality runs low. Nature needs help for a time. You need a good tonic. It builds red blood. Try it for a few weeks and see how much better and stronger you feel.

Pepto-Mangan will improve your health. Pepto-Mangan is sold in both liquid and tablet form. There is no difference in medicinal value. Take either kind you prefer. But be sure you get the genuine Pepto-Mangan—"Gude's." The full name—"Gude's Pepto-Mangan"—should be on the package.—Ad.

# RICHMOND WOMAN HAD SUFFERED FROM YOUTH

**Dyspepsia and Nervousness Now Things of the Past and She Feels Splendid Since Taking Tanlac**

"I am so happy over what Tanlac has done for me that I want to talk about it all the time," said Mrs. C. E. Dozier, 1403 Prentiss Avenue, Portsmouth, Va.

"I had suffered from indigestion ever since I was a child and have taken medicine nearly all my life, but I was gradually growing worse each year. I was a confirmed dyspepsia and hardly a day passed that I was free from suffering. Everything I ate seemed to lie heavy on my stomach and I would bloat up with gas something awful. I had the worst sort of pains around my heart and in my left side, and at times I didn't think I could hold out under the strain, and often I became so nauseated I could not retain a thing I had eaten. I had spells of dizziness and would have to sit or

lie down until I could recover. My nerves were badly unstrung, and at night I was in such misery I could scarcely get any sleep at all. My housework became burdensome and I got so weak and worn out I felt like I was ready to give up.

"About three weeks ago I began taking Tanlac and am feeling better than I have in many years, and now for the first time since I was a child I can eat whatever I please without suffering any bad after effects. The indigestion has left me altogether and I am no longer troubled with gas, bloating or pains. My nerves are steady and I haven't had an attack of dizziness since I started taking Tanlac. I enjoy perfect rest every night, and when I get up in the morning I am feeling so fine I can do my housework without tiring one bit."

Tanlac is sold in Richmond by Stockton & Son; in Berea by the Welch Department Store, and at College Hill by Gentry Bros.

## THIS SEASON OF THE YEAR IS FINE FOR RESOLUTIONS

NEW ERA HERE AND NOT NECESSARY TO "SWEAR OFF" AS OF YORE.

RESOLVE TO "GET AHEAD"

U. S. Treasury Department Interested in the Welfare of Those Who Will Help Themselves.

Now that Christmas of 1919 has come and passed into history with all the rest of the nineteen hundred odd years that have elapsed since the event that gave rise to the year's happiest celebration, the minds of men and women turn to the new year, and the "resolution making" period arrives.

The fact that the greater part of these resolutions are broken before the new year is many weeks or months old should not deter us from continuing the practice of forming new resolves, and we should determine that we at least will be among those who at the end of 1920 will have the satisfaction of knowing that we have faithfully kept the compact with ourselves.

Self-denial has ever been the main theme of the major part of these new year resolutions. In those almost forgotten times, before the memorable July 1, 1919, the closing night of the year was a favorite time for bidding farewell forever to John Barleycorn and his allies—the bubbling wine and the foaming stein.

My Lady Nicotine also received many a sad jolt, from which he recovered in due time, and the man who was loquacious in his protestations that he was done forever and for aye with the seductive charms that come from the weed was in a few months, or a short time at best, drawing solace from the pipe of briar or meerschaum, or from a fragrant Havana, stogie or cigarette.

Of course there were countless other resolves that were given more or less publicity around the festive boards that groaned and some time roared because of the choice viands and the tempting decanters and iced pails that adorned the tables, but in the main these mentioned were prime favorites.

And self-denial was the principal. Man kind of hankers after punishing himself. He feels rather like a hero when he feels that he is bearing up under deprivations of which he himself is the instigator.

But New Year's Eve there was no need of wasting time over "swearing off" of the cup that cheers and sometimes inebriates. A will stronger than our own has spoken, and the day of the distinction between the various grades of drinkers or tipplers is supposed to have vanished from the earth.

But there is ample room for other resolves. One that should appeal to all is the resolution maker intends to "get ahead" in 1920. There are opportunities that may never come again. The world is just recovering from the most devastating war that history can recount. The surpluses are exhausted in every corner of the earth. There was never such a demand for raw materials. Manufactured articles are sold before they are made, and the entire world is crying out for increased production.

Salaries are higher than they ever were, and wages are now higher than salaries were before this new era set in. But if the toiler spends his income as fast as he receives it, at this wonderful opportunity means nothing to his future. When the reaction comes he will be in no better position to battle with the world than he was in the olden times when dollars were scarce and jobs were not so abundant.

But the one who saves systematically and intelligently is the one who will be the gainer in the end. This time of the year is a fine time to make a real resolution. There may appear somewhat of the self-denial in it—this setting aside of a certain part of one's income for the future. But it will pay in the long run.

The Treasury Department of the United States has established a Savings Division just especially to meet the changed times. This government of ours looks a long way ahead.

It has caused to be issued some wonderfully attractive government securities—Treasury Savings Certificates and War Savings Stamps. These are designed not for the capitalists, but for the man of moderate means. In these securities no one may hold more than \$1,000 in any one issue. The Government wants these securities to be in the hands of many people, rather than in the hands of a few capitalists.

These securities draw interest at the rate of 4.27 per cent if held until maturity. If a man buys a full thousand dollars in these and still has money to invest, there are issues of Liberty Bonds that he can still buy on the market at attractive prices. The Government pays the interest on these bonds with the utmost regularity, and when they fall due they will be paid just as sure as the sun shines.

A resolution to get into the saving class now, if kept, will be of benefit to you as long as you live.
